LANDOWNER NEWSLETTER

AUGUST 2003

Cheyenne Plains Pipeline Company Files Application at FERC

Cheyenne Plains filed an application with the Federal Energy Regulatory Commission (FERC) on May 20, 2003 for the Cheyenne Plains Project, which includes the construction of approximately 380 miles of 30-inch pipeline beginning at the Cheyenne hub on the Colorado/Wyoming border. This pipeline will extend southeasterly across Colorado and northwestern Kansas and will end near Greensburg, Kansas. The pipeline will provide a means of transporting the growing supply of Wyoming natural gas to markets in the mid-continent United States and to interconnects to markets further east.
