Re: *Southern Natural Gas Company*
Docket No. CP05-388-003
Notice of Commencement of Construction – Phase II

Dear Ms. Bose:

On July 24, 2007, the Federal Energy Regulatory Commission ("Commission") issued its Order Amending Certificate ("July 24 Order") in the captioned proceeding authorizing, among other things, Southern Natural Gas Company ("Southern") to amend its certificate for the Cypress Pipeline Project Phase II facilities issued on June 15, 2006, to install a 10,350 horsepower electric-driven compressor unit at Compressor Station No. 2 ("Brookman Compressor Station"), in Glynn County, Georgia, rather than the previously authorized 10,350 horsepower gas-driven compressor unit. On August 8, 2007, the Commission granted Southern's August 3, 2007, request to commence construction of the Phase II facilities, as amended. Ordering Paragraph (B) of the July 24 Order requires Southern to submit the notice required by Section 157.20(c)(1) of the Commission's Regulations. In compliance therewith, Southern hereby files an original and four (4) copies of this notification that construction of the Cypress Pipeline Project Phase II facilities began on September 24, 2007.

A Certificate of Service is attached

Please stamp and return the enclosed copy of this letter for Southern's files.

Yours very truly,

R. David Hendrickson
