***Re: Southern Natural Gas Company
Docket Nos. CP05-388-000 and CP05-388-003
Notification of Commencement of Service - Phase II Facilities
And Compliance with Environmental Condition Nos. 9 and 13***

Dear Ms. Bose:

On June 15, 2006, the Federal Energy Regulatory Commission (“Commission”) issued in the above-referenced proceeding its Order Issuing Certificates (“June 15 Order”) authorizing, among other things, Southern Natural Gas Company (“Southern”) to construct, own and operate approximately 166 miles of 24-inch pipeline in Georgia and Florida, the Cypress Pipeline Project, to be constructed in three phases (“Cypress Pipeline Project”). On July 24, 2007, the Commission issued its Order Amending Certificate (“July 24 Order”) authorizing Southern to install a 10,350 horsepower electric-driven compressor unit rather than the previously authorized 10,350 horsepower gas-driven compressor unit at Compressor No. 2 of Phase II facilities of the Cypress Pipeline Project. Southern began construction of the Phase II facilities on September 24, 2007. On April 24, 2008, Southern received Commission authorization to place the Phase II facilities of its Cypress Pipeline Project in service.

Therefore, pursuant to Section 157.20(c)(2) of the Commission’s regulations and ordering paragraph (B) of the July 24 Order, Southern hereby files this letter electronically notifying the Commission and the parties to this proceeding that on May 1, 2008, it commenced service on the Phase II facilities of the Cypress Pipeline Project.

Furthermore, pursuant to Environmental Condition No. 9 of Appendix B to the June 15 Order, Southern hereby files the attached Certification stating that it has complied with all applicable conditions, and that continuing activities for the Phase II facilities will be consistent with all applicable conditions.

Finally, Environmental Condition No. 13 of the June 15 Order requires Southern to file within 30 days of placing the facilities in service a listing of all water supply wells/systems affected by the construction of the project and how repaired. Therefore, in compliance with Environmental

Condition No. 13 to the June 15 Order, Southern hereby files this letter indicating that no water supply wells/systems were impacted or damaged due to construction of the Phase II facilities of the Cypress Pipeline Project.

Respectfully submitted,

R. David Hendrickson
