Browser Settings

Configuring Cookie Policy for Internet Explorer

Prerequisite

The default *Privacy* setting for Internet Explorer is **Medium**. This setting is normally sufficient to ensure the proper handling of cookies used by El Paso Taleo system.

Internet Explorer > Tools > Internet Options > Privacy

Steps

1. In the Privacy tab, click Advanced.
2. In the Advanced Privacy Settings window, clear the *Override automatic cookie handling* option.
3. Click OK.
4. In the Privacy tab, click Sites.
5. In the Per Site Privacy Actions window, add "EIPaso.com" (without quotes) in the Address of Web site field.
6. Click Allow.
7. Click OK twice.

Enabling JavaScript

JavaScript is required for the proper function and use of the El Paso Taleo system.

Prerequisite

Internet Explorer > Tools > Internet Options

Steps

1. In the Security tab, click the Internet icon.
2. Click Default Level.
3. Click OK.

HTTP 1.1

Http1.1 should be enabled.

Go to tools >> Internet options >> Advanced tab.

Scroll until you find the 1.1 area and turn it on.

Pop-Up Blockers

Pop-up blocking features were introduced in Internet Explorer 6.0 with Windows XP SP2 (released August 2004).

The default settings for this pop-up blocker feature might interfere with the proper use of the El Paso Taleo system. Therefore, El Paso recommends that this feature be disabled when using the El Paso Taleo system.

Disabling the Pop-up Blocker

Allows users experiencing difficulties with the El Paso Taleo system to disable the pop-up blocker feature.

Prerequisite

Internet Explorer > Tools > Pop-up Blocker > Pop-up Blocker Settings

Steps

1. In the Address of Web site to allow field of the Pop-up blocker settings window, type the address or URL of the El Paso site you are using (for example: "elpaso.com").
2. Click Add.

Result

Pop-up windows should be authorized to be displayed when accessing the specified El Paso address or URL.

Tool Bar

Because of built-in pop-up blockers, it is recommended that you do not use any tool bar as they may interfere with the El Paso Taleo system.

Enabling JavaScript

JavaScript is required for the proper function and use of the El Paso Taleo system.

Prerequisite

Internet Explorer > Tools > Internet Options

Steps

1. In the Security tab, click the Internet icon.
2. Click Default Level.
3. Click OK.

HTTP 1.1

Http1.1 should be enabled.

Go to tools >> Internet options >> Advanced tab.

Scroll until you find the 1.1 area and turn it on.
