

**Tennessee Gas Pipeline Company  
300 Line Project  
Exhibit Z-1**

**Auxiliary and Appurtenant Facilities**

**Pipeline**

Pig launchers and receivers

Associated pipe, valves, and fittings

Main line valves

Cathodic protection

**Meter Station**

Ultrasonic transducers

**Compressor Stations**

Buildings (compressors, unit valves, control, auxiliary, storage)

Gas blowdown silencer

Fuel gas system

Domestic gas system

Motor control center

Automation and control systems

Building protection systems

Emergency shutdown systems

Communication equipment, including radio towers

Cathodic Protection

Compressed air systems

Exhaust silencers

Inlet air systems

Gas discharge cooler

Lube oil cooler

Filter/separators

Process valves

Electrical equipment, including grounding system

Standby generator

Miscellaneous station piping/valves/fittings

Miscellaneous tanks

Electrical substation
