13.0 INTRODUCTION

This resource report is required for construction of new liquefied natural gas (“LNG”) facilities or the re-commissioning of existing LNG facilities. The Project does not involve the construction or re-commissioning of any LNG facility. Therefore, in accordance with Commission guidance provided in 18 Code of Federal Regulations (“CFR”) Section 380.12(o), Resource Report 13 addressing additional information related to LNG facilities is not required.
